

Product Change Notification

Overview: Please be advised that the following is notice of change to the Fire Research recessed lighting fixture model OPA230 with HID (High Intensity Discharge) bulbs.

Products Affected: All recessed lighting fixtures with, 12 and 24 Volt DC, 70 and 150 Watt HID bulbs shipped after 01MAY08 (serial number L-0029174).

This includes the following FRC part numbers:

OPA230-H70, OPA230-H15, OPA230-E70, OPA230-E15

Change Description: The required panel cutout dimension has changed. The new cutout dimension is 5/8" higher. (It is 3 7/8 by 8 3/4.)

Reason For Change: Improvements in the casting the holds the lamphhead.

Replacement Product: All models will be shipped with the new casting.

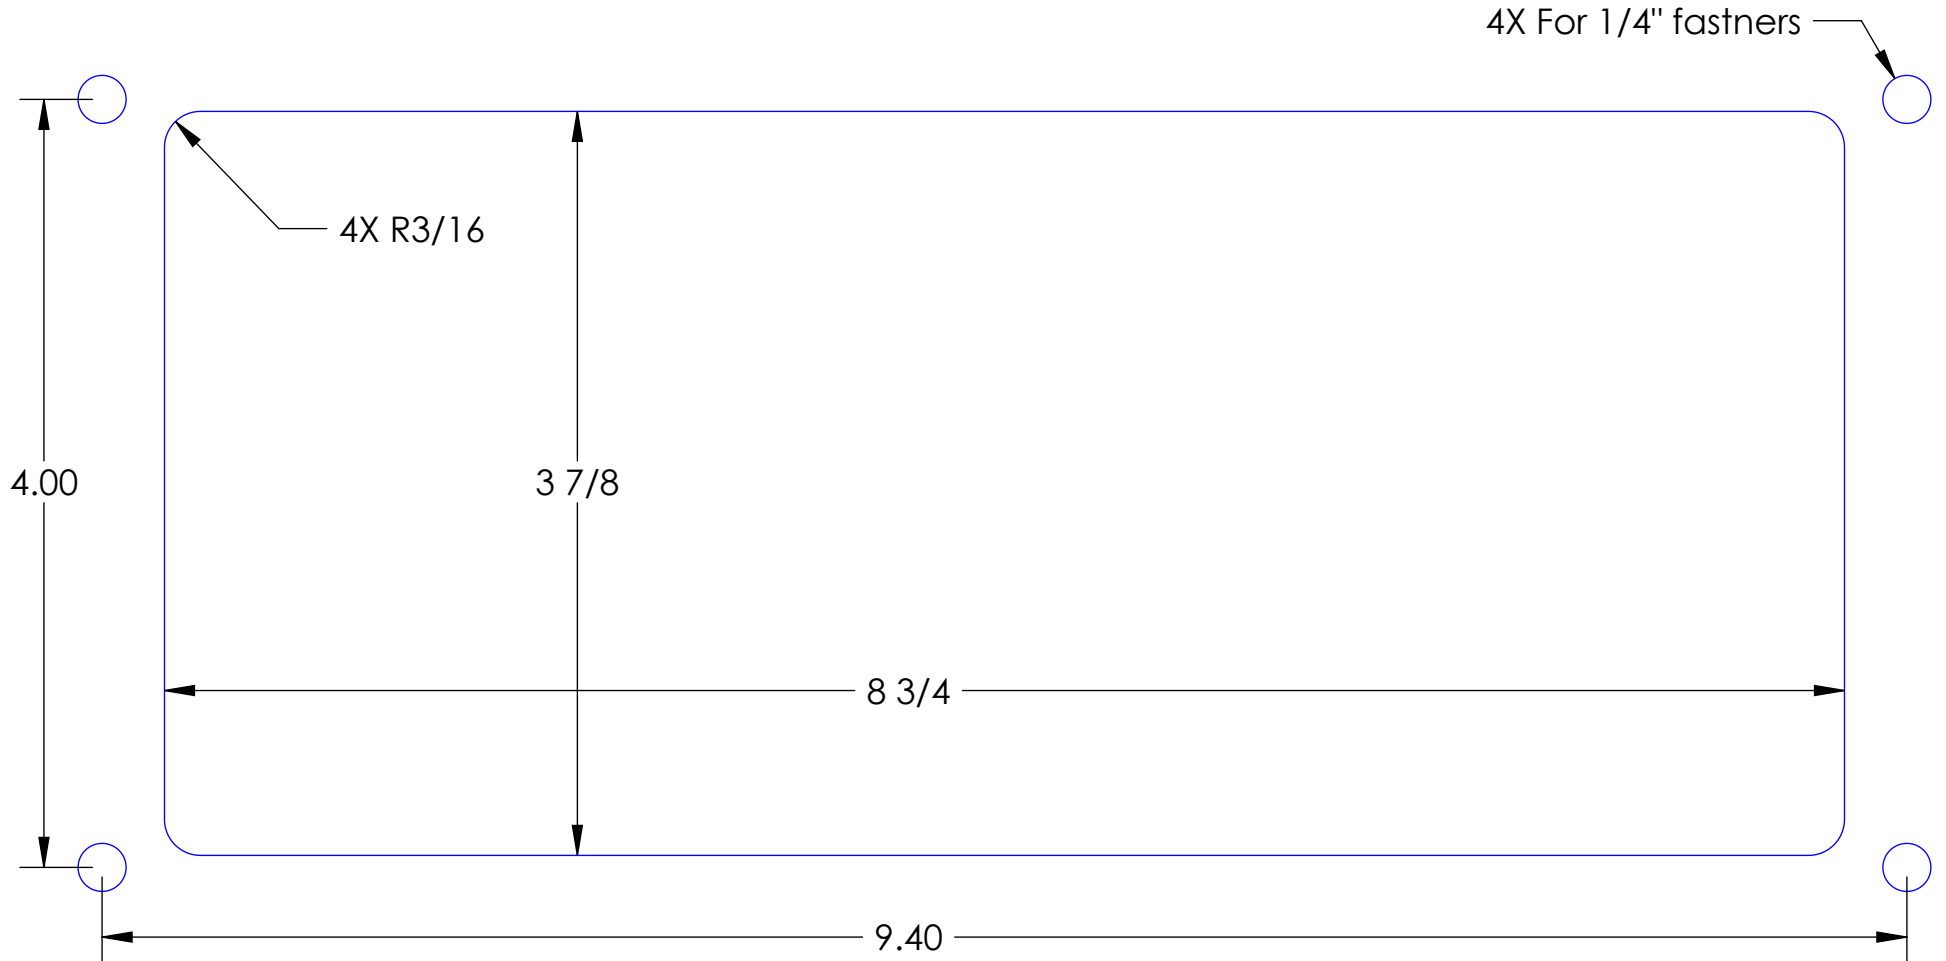

The mounting screw hole pattern is the same as the old casting. The panel cutout for the old casting can be enlarged at the top and bottom to fit the new casting.

References: The following drawing is available with the dimensions of the required cutout hole for the OPA230 recessed lighting fixture:

DWG. NO. OPA230 panel cutout dated 06-11-08

Response: No response to this notification is required. Requests for additional information should be directed to an FRC sales representative at 1.800.645.0074.
