

Product Change Notification

Overview: Please be advised that the following is notice of change to Fire Research governor and engine display products intended for use with a Detroit Diesel engine model year 2008 and newer.

Products Affected: All governors and engine displays for Detroit Diesel engines that rely on the J1587 databus.

This includes the following FRC models:

INControl TGA102

INControl TGA202

PRO-S PRA202

AutoControl WSD200

TACH PRO TPA300

TACH Plus TPA400

Change Description: The above models are not available for Detroit Diesel engine model year 2008 and newer.

Reason For Change: The J1587 databus is no longer fully supported for the above products.

Replacement Product: FRC will continue to provide these products for 2007 and older engines along with service and parts.

The new models of the INControl governor, TGA302/TGA402, provide all the same features as the INControl TGA102/TGA202 with the added benefits of updated programming flexibility and J1939 CAN bus control.

The other products do not have a direct replacement available at this time.

References: No references are applicable.

Response: No response to this notification is required. Requests for additional information should be directed to an FRC sales representative at 1.800.645.0074.

Product Change Notification Amendment

Overview: Please be advised that PCN0809-01 issued 04SEP08 is amended to include Mercedes MBE900 and MBE4000 engines, model year 2008 and newer, equipped with a DDEC VCU.

Products Affected:

This includes the following FRC models:

INControl TGA110

INControl TGA210

PRO-S PRA210

AutoControl WSD110

Replacement Product:

The new models of the INControl governor, TGA310/TGA410, provide all the same features as the INControl TGA110/TGA210 with the added benefits of updated programming flexibility and J1939 CAN bus control.

References: Refer to PCN0809-01.
